Professional Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with strong foundations in Java, Python, C++, JavaScript, React.js, MySQL, and Data Structures. Experienced in developing full-stack applications, REST APIs, and data visualization solutions. Passionate about software development, problem-solving, and building scalable software systems.

Technical Skills

Languages: Java, Python, C, C++, JavaScript

Frontend: React.js, HTML, CSS

Database: MySQL

Core Subjects: DSA, OOP, DBMS

Tools: Git, GitHub, Chart.js, GenAI

Education

B.Tech in Computer Science and Engineering (AI/ML)

CGPA: 8.92/10

Vellore Institute of Technology, Bhopal

Aug 2023 – Present

Higher Secondary Education

Shri Ram Centennial School, Agra

2022 – 2023

Projects

Chemical Equipment Parameter Visualizer

Sep 2025 – Nov 2025

- Developed a full-stack application to upload, process, and visualize chemical equipment data from CSV files.
- Built a Django REST API backend with authentication and CRUD operations.
- Designed a React.js frontend with Chart.js dashboards for real-time analytics and visualization.

Medie Genie Healthcare Platform

Sep 2024 – Jan 2025

- Developed a healthcare platform for emergency services, appointment scheduling, and teleconsultation.
- Implemented medical record management and pathology test booking features.
- Enhanced accessibility through a centralized healthcare solution.

Leadership & Experience

Core Member, UX Club, VIT Bhopal

Oct 2025 – Present

- Collaborate with designers and organizers to create user-focused content for workshops and events.
- Translate complex UX concepts into clear and engaging communication.
- Improve user engagement through feedback-driven content refinement.

Volunteer, FinTech Club (Advitya'25)

Feb 2025

- Assisted in planning and execution of technical events during Advitya'25.
- Contributed to event management, photography, and participant engagement activities.

Certifications

Introduction to Internet of Things – NPTEL (Elite, Top 5%, Score: 90%)

Jan 2026 – Apr 2026

Applied Machine Learning in Python – University of Michigan (Coursera)

Nov 2025 – Jan 2026

Cloud Computing – NPTEL (Score: 74%)

Jan 2025 – Apr 2025

HP Power Lab – Hindustan Petroleum Corporation Limited

Jan 2025

Achievements

- Maintained a CGPA of **8.92/10** in B.Tech Computer Science and Engineering (AI/ML).
- Ranked in the **Elite + Gold** category in NPTEL's Introduction to Internet of Things course with a score of **90%**.
- Earned the Applied Machine Learning in Python certification from the University of Michigan.
